Available Immediately

PROFILE SUMMARY

Self-taught Software Developer with **2.9 years** of professional experience spanning software development, full-stack engineering, IT/technical support and cyber security-minded application design. Core strength in **.NET Core 6/8, C#, Web API, Angular and MSSQL Server**, with hands-on experience in JWT authentication, audit logging, SignalR, RabbitMQ, NUnit and CI/CD tooling, plus exposure to Python, FastAPI, PostgreSQL and MongoDB. Strong troubleshooting, bug-tracking and client-facing support skills, with a security-first approach to building and maintaining production systems. Comfortable owning a feature end-to-end, from requirements and database/API design through frontend integration, testing and deployment. Open to development, IT support and technical roles. Available immediately.

WORK EXPERIENCE

Junior Software Developer • TechnoBrains Business Solutions

March 2024 – Nov 2025 • Ahmedabad, India • US Healthcare Platform (RadFlow 360 – MRI / X-Ray / CT Imaging)

- Architected RESTful API endpoints using .NET Core 6/8 with OOP, SOLID principles, **JWT authentication**, CORS and async/await for high-throughput workflows.
- Migrated production APIs from .NET Core 6 to .NET 8 and upgraded the Angular frontend from v10 to v18, reducing build size and extending support lifecycle.
- Integrated third-party services (QuickBooks, RabbitMQ, Temporal, Bitwarden, Tebra API, Keploy) within a cross-functional Agile team.
- Implemented SignalR real-time notifications for patient record changes, eliminating polling and delivering instant updates.
- Built secure file upload & folder management module for clinical staff, and optimized MSSQL Server with indexed views, triggers and stored procedures.
- Delivered automated Cron-based email workflows for payment case tracking and an **admin audit-log module** for login/device tracking.
- Wrote NUnit unit tests for Web API endpoints, performed bug tracking and troubleshooting, and used AI-assisted development to accelerate coding, review and debugging.

Software Trainee • TechnoBrains Business Solutions

March 2023 – Feb 2024 • Ahmedabad, India

- Completed intensive full-stack training in .NET Core, C#, Web API, Angular and MSSQL Server, delivering end-to-end sample applications using Agile and Git workflows.

KEY INDUSTRY PROJECTS

Precise RadFlow 360
US-based cloud diagnostic imaging platform (MRI, X-Ray, CT).

Lizmontagens ERP
Enterprise ERP & material-flow management system.

Flagship Biotech DMS & HRMS
Dossier document management system & HRMS.

Pragati Electricals ERP
End-to-end ERP for electrical business operations.
